What is Radical Politics Today?

Jonathan Pugh

JONATHAN PUGH is Senior Academic Fellow in Territorial Governance at Newcastle University, UK. He is Director of 'The Spaces of Democracy and the Democracy of Space' network. This examines the character and spirit of radical politics today, operating through 15 institutions globally.

'This is a bold, brave and timely book. As we emerge, blinking into the light after three decades of neo-liberal darkness, Jonathan Pugh has put together a collection of essays that will provoke and provide clues to the question of what comes next; what indeed is radical politics today?'
– Neal Lawson, Chair of Compass

'With impeccable timing, this volume provides a stimulating range of perspectives on what radical politics can offer during this period of crisis and change. It deserves to be widely read and debated.' - Ruth Lister, Professor of Social Policy, Loughborough University, UK

'Like an exploding star, the radical Left in the UK has disintegrated and its fragments have flown off in all directions. People who once thought they were engaged in a common project can no longer agree about where they are going, yet alone how they should get there. If you feel radical but confused read these essays. They may make you even more confused, but they may also help you decide where to go next' - Bob Rowthorn, Cambridge University

About the book

A crisis makes you rethink your life. The recent economic crisis is no exception. All of us are now thinking how the world could be run differently. Despite this, a radical alternative has hardly emerged to mobilize the masses. Written for the public and students, this book explores the character and spirit of radical politics in our times.

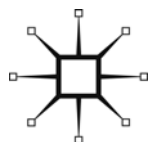

Selling Points

Written for the public and students, this book explores the character and spirit of radical politics in our times

- **PROVOCATIVE:** controversial and often opposing views of the role and importance of radical politics today
- **AUTHORITATIVE:** Original contributions from thirty well-known and influential commentators, including Saskia Sassen, Dora Apel, Clare Short, Frank Furedi, Chantal Mouffe, and Zygmunt Bauman
- **TIMELY:** The only wide-ranging survey of the state of radical politics after the global financial crisis

Right-Wing Extremism in Contemporary Germany

Gerard Braunthal

GERARD BRAUNTHAL is Professor Emeritus of Political Science, University of Massachusetts Amherst, USA. As a specialist on politics in Germany he has written numerous books on its parties, interest groups, and domestic politics, such as *The German Social Democrats since 1969: A Party in Power and Opposition*.

'Right-wing Extremism in Contemporary Germany provides readers with valuable insights into how the far right in Germany is challenging the political order on the streets, in the media and at the ballot box. In this well written and carefully researched book, Gerard Braunthal shows that the 'Berlin Republic' is actively responding to the threat and will be unlikely go the way of the Weimar Republic, even as it experiences the worst economic crisis in decades.'

- David Patton, Connecticut College, USA

About the book

This study of the German right-extremist movement looks at the three rightist political parties, neo-Nazi groups, skinhead gangs, and New Right intellectuals. It poses the question whether, at a time of global recession, the existing democratic system is resilient enough to meet the challenges posed by the xenophobic and racist groups.

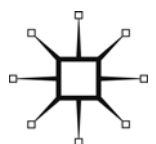

Selling Points

A comprehensive overview of right-extremist political parties, neo-Nazi groups, and skinhead gangs since German unification in 1990 and their threat to the democratic system

- There are few competing titles in English and most, if not all, appeared many years ago and thus are not up-to-date
- Impressive detail, based on an examination of voluminous literature and numerous personal interviews
- Strong and clear throughout, the author is truly a specialist on politics in Germany
- Braunthal is an established name in the field
